

Launching of School Health initiative in Balochistan

NCHD and UNESCO in collaboration with Bureau of Curriculum, Government of Balochistan launched a project on Advocacy and Capacity Building for School Health Program in 06 districts of the province. Under this initiative, 2000 teachers from the districts of Pishin, Zhob, Jafferabad, Awaran, Musakhel and Chagi would be trained in Health Screening of school students. A two day training workshop of Master Trainers was conducted at Quetta on 25-26th November 2010. A total of 20 Master Trainers were trained who would in turn train the teachers in the selected districts.

School Health Screening Module and health education **posters** were developed and produced for the use of teachers in the 06 selected districts of Balochistan under the project.

Master Trainers from the districts of Pishin, Zhob, Jafferabad, Awaran, Musakhel and Chagi are being trained in Health Screening of School Students.
