

Free Vaccination of Hepatitis –B was provided at district Mirpurkhas, Sindh

On March 11-2011, a free medical camp was organized at District MirpurKhas by NCHD in collaboration with Government Health Department to provide vaccination of Hepatitis –B to the school going children / students of rural areas of the district.

Government Primary School Gazi Khan Mirrani was chosen as the camp location due to its better accessibility for the villagers. NCHD staff communicated the message to all the schools present in the area so that maximum children could be benefited from the activity.

Similar activity was held at GPS Gazi Khan Mirrani UC Fazal Bhambharo of Taluka Jhudo on March 15-2011. Children of 32 villages including 19 primary schools and one Middle school were provided with the vaccination of Hepatitis B.

Officials from health department and media personals monitored the proceedings of the camp and appreciated NCHD's efforts for the betterment of the local community.
