

Volunteerism

This Program  is as a support program for the implementation of Health and Education initiatives in monitoring, trainings, advocacy and resource mobilization.

NCHD has always relied on its volunteers' support over the years. These volunteers developed

The Commission has organized several successful conferences and events. Some of them are listed below:

- First ever International Conference on the 'Role of Volunteers in Achieving MDGs' in December 2006.
- 1,876 medical camps, in which patients were treated and free medicines worth Rs32.97 million were distributed.
- Volunteer Medical Stations (VMS) at general District level serving patients in 2006. For the social

Tree Plantation Campaign

Recently, NCHD volunteers and field teams have initiated tree plantation campaign at district level planting saplings in the vicinity of Adult Literacy Centers, Feeder schools, Human Development Support Units, and Basic Health Units as well as in government schools. Till now, about 100,000 saplings have been planted throughout Pakistan by our volunteers.
